

MobiQuitous 2005

*The Second Annual International Conference
on Mobile and Ubiquitous Systems:
Networking and Services*

July, 2005
San Diego, CA

CALL FOR WORKSHOP PROPOSALS

<http://www.mobiquitous.org>

July 2005, San Diego, California, USA

OVERVIEW: The Second Annual International Conference on Mobile and Ubiquitous Systems: Networking and Services (MobiQuitous 2005) will be held in July 2005, in San Diego, California. This is an exciting forum for researchers and practitioners working in the area of mobile and ubiquitous systems, services, and applications. Areas addressed by the conference include applications, service-oriented computing, middleware, mobile computing and networking, agents, knowledge management and databases.

WHAT TO SUBMIT: We solicit proposals for workshops on new and emerging topics in mobile and ubiquitous computing and systems, infrastructure, and services. An ideal proposal would focus on a specific theme, be of current interest, and be able to attract a number of high quality submissions. Proposals for one-day workshops to be held in conjunction with the conference are solicited. We are planning to host 4 one day workshops on the day after the final day of the main conference. The workshop proposal should be a maximum of 2 pages long and should clearly identify the theme, the scope, and specific topic areas of interest which define the scope of the workshop. The proposal should also suggest potential program chairs and program committee members.

SUBMISSION GUIDELINES: Please send workshop proposals in ASCII or PDF format by **December 17, 2004** to the workshop chairs, Dr. Stefano Basagni (basagni@ece.neu.edu) and Dr. Prithwish Basu (pbasu@bbn.com). We look forward to your submissions.

IMPORTANT DATES:

Workshop Proposal Submission Deadline:

December 17, 2004

Conference and Workshops:

July, 2005

We look forward to your submissions.
