

11th International Conference on Mobile and Ubiquitous Systems: Computing, Networking and Services

December 2–5, 2014 London, UK

Call for Competitions

MobiQuitous 2014 invites proposals for competitions of the 2014 International Conference on Mobile and Ubiquitous Systems: Computing, Networking and Services, in cooperation with ACM SIGAPP, SIGBED and technically co-sponsored by IEEE.

We are soliciting competition proposals on topics of relevance to Mobile and Ubiquitous Computing.

- You have a **dataset** you want people to exploit?
- You want to push people to compete with new approaches **hot topics** in Networked, Mobile and Ubiquitous systems?
- You have a **challenge**/problem you would like to see solved and are looking for creative solutions?

Competitions are a great opportunity to direct the interest of a community towards a hot topic and to connect with people that conduct the real research.

Depending on the competition format, scientific papers submitted to competitions can be included in the adjunct proceedings of the Mobiquitous Conference and will then be accessible via the ACM digital library.

Pre-proposal Submission Inquiries

If you have questions on specific needs or practical issues for your competition, please contact us at competitions@mobiquitous.org.

We are keen to help you realise your competition idea.

Competition Proposal Content

The proposal should be prepared as a document of no more than 4 pages in the official ACM proceedings format – tighter alternate style ([Word](#), [Latex](#)). It must describe the topic, rationale and objectives for the competition, the organizers' backgrounds and bio, an estimate of expected participation.

Selection Process

Competitions will be reviewed by a jury of experts who will consider several factors, including:

- Timeliness and novelty of the competition topic

Technically Co-Sponsored by

- The potential for the topic of the competition to stir interest in Mobiquitous audience.
- The quality, organization and plan described in the proposal.
- Relevance to the main conference.

Organizers' Responsibilities

The organizers of a competition are expected to:

- Publicize the competition with a call for competitors via the MobiQuitous website
- Set up a own web site for the competition containing more details on the competition
- Work with the MobiQuitous Publication Chairs if you plan to to include competition papers in the ACM digital library and the supplementary proceedings
- Work with the MobiQuitous Workshop Chairs to arrange the competition
- Actively run the competition

Submitting Your Proposal

Please email your proposal directly to competition@mobiquitous.org. The deadline for submission is **May 1st, 2014**. The submission should be a single PDF file, including both the proposal (max. 4 pages).

Important Dates

- Submission deadline: **May 1, 2014**
- Notification of acceptance: **May 10, 2014**
- First distribution of all accepted competition's calls for participation: **May 20, 2014**
- Competitions: **December 2, 2014**

Workshop Chairs

Stephan Sigg, Georg-August University Goettingen, Germany
Iqbal Mohamed, IBM Research, USA
